## EDUCATION

---

### •Computers and information technology Cairo University

2018

*Bachelor Degree*

CGPA/Percentage: c

## EXPERIENCE

---

### •Alshamel

*Kuwait*

- I contributed with a team of 8 developer as full stack developer in erp application
- This application has separate programs like pos and real state , archiving etc...
- Each program has screens and modules , each client or partner may has one or more programs for every company he owns
- Our company rents these programs to the client during a specific period, and that period is determined by the administration

### •Arkmind

*Egypt, Giza*

- Hospital management system

### •Innovation

*Egypt, Giza*

- I developed kamcleaner website (website for manage and marketing for cleaning services)
- I developed kayan , tag websites (multi vendor application that manage and marketing the products of suppliers to the clients (shop owners))
- I developed alelbeet website (a website for studying the Arabic language and memorizing the Holy Quran)
- Altaqwaa gomla application
- Smart parking for car reservation
- I make modifications in some website applications in the company like elzatona , tatweer, shatabna, bestclean, zain store, loata store...
